

# Download Local Elites, Political Capital And Democratic Development

In political science and sociology, elite theory is a theory of the state that seeks to describe and explain power relationships in contemporary society. No consensus exists on how to define democracy, but legal equality, political freedom and rule of law have been identified as important characteristics. We theorize connections between energy systems and democratic political power. • Renewable energy opens opportunities for democratic energy development. The Trump administration did not rise, prima facie, like Venus on a half shell from the sea. Donald Trump is the result of a long process of political, cultural and social decay., Local Elites, Political Capital And Democratic Development.
