

# Download Scientific Knowledge Communication In Museums

This book will be of interest to a diverse readership, including all who are responsible for museums' collections, operations, and communications as well as those delivering or participating in courses on museums and their use, communication design, and related topics. This book explains the general principles of scientific and technical communication in the context of modern museums. It also examines, with the aid of informative case studies, the different means by which knowledge can be transmitted, including posters, objects, explanatory guidance, documentation, and catalogues. 1 Scientific museums as scientific communication --2 General principles of the scientific communication --3 Presentation of posters --4 Presentation of objects --5 Auxiliary communications in the museums --6 Museums and multimediality --7 Case studies. Series Title: Research for development. Responsibility: Alberto Rovetta, Edoardo Roviola.
