

# Download What To Say To Men On A Date

They found that men and women in the study actually altered the pitch of their voice when on a good first date -- basically, taking on a more "masculine" or "feminine" voice when speaking to ...When you're on a first date, remember the following tips. 1. Keep all conversation positive. Never bring up negative things, like how hard your life is right now, how complicated things are with your parents, or how you're sorry that your nails are chipped because you didn't have time for a manicure. Never complain about ANYTHING. Avoid talking about your expectations for a relationship and ANY controversial subjects until you get to know him better.90% of the men out there worry about what to say on a first date more than about when to kiss a woman. I'm here to change that forever. I'm here to change that forever. So, I just said that sometimes it's best to stop talking.And, no matter what you say, here's one word of advice before you begin: the longer you two talk, the better. A Stanford University study showed that the longer the conversation goes on a first date, the less important the superficial stuff like height and looks become to your potential partner., What To Say To Men On A Date.
