

Download Soft Computing And Intelligent Systems

The series "Advances in Intelligent Systems and Computing" contains publications on theory, applications, and design methods of Intelligent Systems and Intelligent Computing. Applied Soft Computing is an international journal promoting an integrated view of soft computing to solve real life problems. Soft computing is a collection of methodologies, which aim to exploit tolerance for imprecision, uncertainty and partial truth to achieve tractability, robustness and low solution cost.?????????????. Biosketch (????? Professor Yaochu Jin is a Distinguished Chair, Professor in Computational Intelligence and Head of the Nature Inspired Computing and Engineering (NICE) Group, Department of Computer Science, University of Surrey, Guildford, Surrey, UK. Soft Computing course 42 hours, lecture notes, slides 398 in pdf format; Topics : Introduction, Neural network, Back propagation network, Associative memory, Adaptive resonance theory, Fuzzy set theory, Fuzzy systems, Genetic algorithms, Hybrid systems., Soft Computing And Intelligent Systems.
